| Calculus | Calculus 2413 (Spring only) | 4 credit hours |

Dual enrollment courses are transferable to Texas public universities. Please contact private and out of state universities to ensure dual classes are transferable. Students must request an official transcript from STC for transferable hours to any university. Transcript request forms are available in the counseling department.

Students must abide by STC guidelines and deadlines regarding dual enrollment classes in addition to mastery of the TSI (Texas Success Initiative). Visit your counselor for more information.
