

Advanced Placement courses will be offered as the District approves them:

These courses are for highly motivated students, and they will provide:

1. A differentiated curriculum that includes a wider range and greater depth of subject matter than that of the regular course.
2. An emphasis on higher level and critical thinking skills that make provision for creative, productive thinking.
3. Instructional strategies that accommodate the learning styles of the students involved.
4. Independent and guided research.
5. Preparation for taking the Advanced Placement examination from The College Board.
